Summary

Motivated Computer Science student with practical experience in Full-Stack Web Development, Native Android Application Development. Proficient in a diverse tech stack including Python, Java, Kotlin, PHP, and modern web technologies. Demonstrated ability to engineer robust, scalable software solutions, having developed utility apps, clinic management systems, and centralized multi-school platforms. Strong interest in software engineering, automation, and optimizing medical and educational workflows.

Education

Bachelor of Science in Computer Science, *Werabe University, Ethiopia* 11/2023 – 06/2027
Werabe, Ethiopia

Skills

Programming Languages
Kotlin, Java, Python, PHP, C++, JavaScript (ES6+), HTML5/CSS3.

Databases & Tools
MySQL, Git, GitHub, VS Code, NetBeans.

Web & Mobile Development
Full-Stack Web Development, Android Development (Jetpack Compose), Responsive Web Design, REST API Integration.

Projects

Welene Secondary Schools Website Platform, *Full-Stack Developer* 08/2026 – Present
Designed and deployed a unified web platform intended to connect and support six high schools within the local district. Built fully responsive user interfaces for better community engagement and streamlined access to regional educational information.

Werabe University Clinic Management System, *Technical Lead & Developer* 05/2026 – Present
Engineered a comprehensive web-based clinic management system using PHP and MySQL to handle student medical records and administrative workflows. Optimized the database architecture for centralized storage, improving appointment scheduling efficiency and reducing administrative data entry time by an estimated 30%.

Certificates

. 5 milion ethio coders four different courses
